

SIGNIFICANT CHANGES IN THE 2024 INTERNATIONAL FUEL GAS CODE

406.7.3.1 – Purging (Addition)

- Fuel gas piping that is abandoned in place must be purged

407.2 – Piping Support (Modification)

- The code now allows non-metallic pipe supports

**THE 2024 INTERNATIONAL CODES
WILL GO INTO EFFECT
JANUARY 1, 2026**

CODES: DID YOU KNOW?

- Building Codes are updated every three years to keep up with trends and needs.
 - Building Codes are developed through the input of code officials, designers, builders, manufacturers, and other experts.
 - Code changes are vetted by committees and voted on by industry experts worldwide before going into effect.
 - The International Code Council is the organization that compiles and publishes the Codes.
 - Cities like Denison formally adopt the Building Codes into law.
-
