## GENERAL REQUIREMENTS TO PARTICIPATE IN SIDEWALK PROGRAM

- Only existing sidewalk is eligible for replacement/repair under this program
- Curb, gutter and driveway replacement will not be reimbursed as a part of this program
- Sidewalk that is replaced as a result of a driveway replacement or reconstruction is not eligible under this program
- Brick sidewalks are not eligible for replacement with bricks. Reconstruction with concrete shall be the only option available for repair or reconstruction
- The owner of the home shall be responsible for all costs associated with sprinkler repair, tree removal, driveway repair/replacement, and retaining wall repair/reconstruction
- Applications will be reviewed by the Public Works Department and the applicant will be notified if approved
- Only licensed contractors that are registered with the city are able to perform the work necessary to replace the sidewalk
- The owner of the property must make application to participate in this program
- All city codes and construction specifications must be followed
- The city will obtain quotes from contractors
- Contractors must obtain a valid permit before any work can begin
- All work must be inspected to be eligible for reimbursement
- The property owner will be required to pay, in advance, the City prior to the contractor being scheduled for the sidewalk to be poured.
